By the firm of Higgins Bros., manufacturing chemists of Dallas, Tex. This enterprising firm have for the last five years been engaged in the manufacture of baking powders, wines, cider, vinegar, etc.

Dr. F. E. Hughes, who presides over their laboratory, has for the last forty years been engaged in the study and practice of medicine and chemistry. They also have in their laboratory Prof. Gao, C. Calhoun, who has for many years been a teacher of chemistry, also Mr. J. P. Warlock, a graduate of chemistry in the University of Philadelphia. These gentlemen in manufacturing the various articles already mentioned have found necessary to combat excessive fermentations, whether vinous, acetous, or ale-holic, which have ever stood in the way of successfully manufacturing such articles as vinegar and alcohol in our Southern climate. The experiments have resulted in the discovery of an agent which completely obviates this difficulty. This agent is the extract of the bark of a tree indigenous to the state of Texas. Carrying their experiments still further, they have ascertained that this same extract as completely controls the only remaining fermentation known to the arts and sciences, viz.: Blood fermentation, which is the cause of fevers as well as of rheumatism. This agent they have combined with the extracts of ginger and lemon, thereby rendering it a most efficacious as well as delightful and palatable beverage. It is not only one of the best tonics in its effects, but the use of it effectively prevents typhomalarial fever. At the same time, it is a sure cure for rheumatism. Dr. Higgins' Extract of Lemon and Ginger is put up in cases of two dozen bottles, and can be found at all first-class drug and grocery stores.

GONZALEZ.

Correspondence of the Gazette.

GONZALEZ, TEX., Aug. 3.—On last Thursday night the storehouse of Judge A. O. Hamon at South River Side, this county, was broken into and robbed of about twenty dollars' worth of goods. Blood was found upon the floor, showing that the thieves had been cut by the broken window-glass in entering the store. To-day five negroes were arrested and placed in jail. Some of the goods were found in the possession of Jack Kelley and he gave the other negroes away and told where the balance or most of the goods could be found. They had taken bolts of calico and placed rocks in them and sunk them in the creek. Search was made and the goods were found at Masonic Institute at 2 p.m.

Its contents was destroyed. It was only by heroic efforts that Mr. Austin's residence was saved. The fire is supposed to have been the work of an incendiary. The loss is about \$500.
